Three Furious Locomotives

1.1 Revisions

Version	Primary Author	Description of Version	Date Completed
i	Alec Barker, Michael Jarman	Initial creation of document.	2/18/2020

1.2 Introduction

iAttend will serve as a more efficient means of recording attendance for the Music department at the University of Mount Union. The system will use QR codes to identify students and to scan and track their attendance to events for recital credits. The iAttend system will consist of three main components: the database, the web service, and the mobile application. The three components will work seamlessly to provide a quick and easy method for the department chair/professor to create a course, its rules and roster, and administer attendance. It will allow students to receive credit for their attendance and to view their progress. Beneficial features of this product will include its security, as well as its simplicity and ease of use for those who may be technologically apprehensive.

1.3 Assignment Due Dates

Assignment	Due Date
Project Selection	01/15/2020
Create Blog	02/05/2020
Requirements Specification Document	02/10/2020
Press Release 1	02/17/2020
Work Schedule	02/19/2020
Presentation 1	02/24/2020
Design Document 1	03/16/2020
Design Document 2	04/01/2020
Presentation 2/Prototype	04/06/2020
Press Release 2	04/15/2020
User Manual	04/27/2020
Project Due	04/29/2020
